

Dear Hiring Team,

Thank you for taking the time to explore my work.

If you've made it this far, you probably already have a sense of how I think about products. What I'd add is simple: I enjoy the space between users, design, engineering and the business — and I care about getting everyone moving toward the same outcome.

I'm open to product roles where I can stay close to users, work across disciplines, and contribute to real product outcomes.

My resume is below. If anything here feels relevant to what your team is building, I'd be glad to talk.

Best regards,

Stephano Ng

Product designer with **nearly eight years** across banking, lending, Web3 and enterprise platforms. I work close to the business — framing the problem before the solution, setting the UX direction, and staying with the work through delivery. Four of those years were spent leading design for a cross-functional team of 10 serving the VN, US and JP markets, which is where I also picked up the delivery side of the job.

EXPERIENCE

UX & Product Consultant — H3Tech, Inc.

Jan 2026 – Jul 2026

Consulted on product and UX direction for an in-house platform team — framing the problem before the solution, prioritising what earned a place on the roadmap, and keeping design decisions tied to business outcomes.

- Partnered with the in-house team to frame product problems before committing to a solution.
- Ran discovery with stakeholders and turned the findings into a prioritised backlog.
- Set the UX direction and reviewed delivery against it.
- Advised on ways of working so design, engineering and business stayed aligned through delivery.

Lead Product Designer / Project Manager — FPT Software

Oct 2021 – Dec 2025

Four years across finance, Web3 and automotive engagements serving the VN, US and JP markets — lead product designer on some, project manager on others.

- Led a cross-functional team of 10, owning UX/UI strategy and execution for a B2B auction platform across VN, US and JP.
- Set the UX/UI architecture direction and held delivery to it, signing off high-impact work before release.
- Found and cleared design bottlenecks to protect delivery throughput.
- Aligned UX, engineering and product around one set of design decisions.
- Built tailored solution proposals that won new customers by tying UX/UI to their business needs.
- Reviewed high-visibility releases against the agreed scope before they shipped.

Sr. Product Designer — Aperia Solutions

Feb 2020 – Jun 2021

Worked across ten core banking products, establishing the shared design system and turning customer requirements into changes that shipped.

- Helped establish a design system serving 10 core banking products, giving teams a consistent, scalable base.
- Gathered requirements directly from customers and turned them into prioritised product improvements.
- Produced wireframes, prototypes and UX frameworks to raise usability across the financial platforms.
- Held products to consistent behaviour so the banking ecosystem read as one product.

Product Designer — Tinh Van Software

Aug 2019 – Oct 2019

Designed the lending experience for a service reaching more than 500,000 customers, working with stakeholders to fit the business rules to what users could actually complete.

- Owned UX for a lending service serving 500,000+ customers.
- Worked with stakeholders to turn business requirements into flows people could complete.
- Ran user research and usability testing to close the gap on product-market fit.
- Partnered with engineering to ship responsive, accessible interfaces.

EXPERIENCE (CONTINUED)

UI/UX Designer — Panic Bear

Dec 2018 – Mar 2019

First product role — improving the storefront experience for an electronics business selling into the Australian market, with conversion as the measure.

- Improved UX for electronics products in the Australian market, lifting usability and conversion.
- Built interactive prototypes and ran user testing to validate interactions before build.
- Contributed to UX strategy and sharpened digital touchpoints to raise engagement.
- Kept design documentation and style guides current so work stayed consistent across projects.
